

DRAGAGES SINGAPORE

Giving life to your projects

DRAGAGES SINGAPORE, A NAME FOR INNOVATION AND EXCELLENCE

Dragages Singapore Pte Ltd is a leading engineering and construction firm in Southeast Asia and a member of **Bouygues Construction**, one of the foremost construction groups in the world.

Dragages is well-known for leveraging on innovative engineering solutions to deliver difficult projects on time to the highest standards of safety and quality.

OUR COMPANY COMBINES THE STRENGTH OF AN ESTABLISHED GLOBAL GROUP AND THE ONGROUND KNOWLEDGE OF A LOCAL COMPANY TO COVER THE FULL SCOPE OF **DESIGN, CONSTRUCTION, MAINTENANCE AND DEVELOPMENT** OF A PROJECT

Our know-how, gained through **40 years of world wide experience in engineering and construction**, enables us to respond to any requirement and to bring your projects to life.

A WIDE-RANGING EXPERTISE

Whether in the public or in the private sector, on green-field or on refurbishment projects, in real estate or in civil infrastructure, in mass residential or in boutique hospitality, we are playing our part in maximizing value and efficiency in the development and construction process in the respect of clients' needs and of the environment.

- Mass and high-end residentials • Offices • Retail • Education • Public venues • Sporting facilities
- Hospitality • Industrial Buildings • Data Centers • Healthcare • Exhibition Halls • Super high rise towers
- Airports • Institutional Buildings • Roads • Tunnels • Bridges

High-End Residential

Dragages works closely with its clients to achieve the highest level of quality within budget and time project.

Mass Residential

Thanks to optimised construction methods and to its procurement network, Dragages is able to offer competitive prices and high levels of quality on affordable housing projects.

Hospitality

Dragages offers innovative technical solutions, meeting investment criteria as well as end-user requirements.

Public and Sporting Venues

With its solid experience in the construction of large-scale facilities, Dragages is in a position to propose financing solutions for stadiums and public venues.

OUR SUSTAINABLE AMBITION

Whatever the project, we aim at **designing, building and operating sustainable buildings and structures**, taking into account the expectations of all stakeholders: clients, partners, employees and communities. All Dragages projects in Singapore are environmentally certified.

Protecting the environment is an integral part of **our vision of sustainable construction**, a commitment that our teams convert into meaningful actions.

A LONG TERM PARTNER FOR YOUR PROJECTS

DESIGN MAKE YOUR DREAM COME TRUE

Dragages design managers act as conductors to bring architects, engineers and specialists in sync, and ensure timely performance of coordination, value engineering, equipment selection and risk analysis.

Our work is at the forefront of modern construction technology, with use of integrated **BIM processes**, and a wide network of procurement offices to identify innovative and cost-effective materials worldwide.

CONSTRUCTION IN OUR HEART AND SOUL

Dragages has a simple and solid entrepreneurial philosophy: deliver exceptional buildings, living spaces that blend into the culture and the environment of countries we are working in.

Our main asset is **self production**, because understanding of operational practices, management of processes and control of quality site are at the heart of our success.

FINANCE SERVE YOUR AMBITION

Dragages has access to a team of in-house financing specialist who will advise on suitable financing sources and assist in structuring **optimised financing arrangements**. Our specialists are familiar with a wide range of contracting arrangements, including PPP and BOT, and are known for innovative robust financing solutions.

They are relying on a solid network of trusting equity and debt providers keen to participate in development projects spearheaded by our Group of companies.

OPERATE A LONG-TERM PARTNERSHIP

Our strong expertise in developing long term whole-life cost projections and optimisation enables us to deliver comfortable, sustainable & efficient buildings through multi-discipline maintenance, energy management, occupant services and IT.

Dragages has a specific know-how largest building operations, and the experience of the **world's largest Public Private Partnership sport project: the Singapore Sports Hub**.

BOUYGUES IN ASIA BEYOND BORDERS

The Bouygues Group has been working in Asia for more than 25 years. Originally established in Vietnam and in Hong Kong, the Group has gradually spread its activities all over Asia, to Singapore, Thailand, Vietnam, Malaysia, Indonesia, India and now Australia and Myanmar.

In 2013, Bouygues achieved a turnover of nearly \$2,500M in Asia with 13,400 employees.

The synergy between all its businesses allows Bouygues to take on **complex multi-disciplinary projects successfully anywhere in the region.**
